

Moderate Sedation and Ultra Sound Documentation from Duva

Moderate sedation:

- in addition to the sedation flow sheet and/or nurses notes, the provider must document his/her sedation intraservice time in the procedure note:
- Intraservice time starts with the start of the sedation and concludes when the provider is no longer required at the patient bedside.
- The minimum time threshold is 10 minutes
- Time can be documented by a start and stop time, or a specific number of minutes.

Ultrasound documentation:

- the reason for the ultrasound
- description of the structure or organs being examined.
- the findings of ultrasound
